Application/Control Number: 09/977,484

Art Unit: 2857

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1, 2 and 6-8 are allowable over the prior art because the prior art does not disclose or suggest: an integrated circuit sensor unit that includes a sensor signal processing unit that processes a sensed signal using adjustable coefficient values stored in a memory device, to provide a sensor output signal on a output line indicative of a measurement variable, wherein the integrated circuit sensor unit receives updated adjustable coefficient values via the output line and stores the updated adjustable coefficient values in the memory device.

Claims 3 and 9 are allowable over the prior art because the prior art does not disclose or suggest: an integrated circuit sensor unit that receives power via a first line and includes a sensor signal processing unit that processes a sensed signal using adjustable coefficient values stored in a memory device, to provide a sensor output signal on a second line indicative of a measurement variable, wherein the integrated circuit sensor unit receives updated adjustable coefficient values via the first line and stores the updated adjustable coefficient values in the memory device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 09/977,484

Art Unit: 2857

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hal D. Wachsman whose telephone number is 571-272-2225. The examiner can normally be reached on Monday to Friday 7:00 A.M. to 4:30 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marc Hoff can be reached on 571-272-2216. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
